

Form 1: Enrollment and Account Setup

DRAFT FOR ATTORNEY REVIEW. NOT A FINAL FORM. NOT LEGAL ADVICE.

Document ID: CL-CONSENT-01 · Version 2026.03 (draft) · Governing law: Ohio and applicable federal law

Incorporates Form 00 (Master Terms) by reference. Capitalized terms are defined there.

> How this form works. This form has three parts. Each part has its own boxes and its own signature. Check the boxes you agree to. Leave blank anything you do not agree to, and we will record that as a "no." Your signature at the end of each part confirms only the boxes you checked in that part. Parts A and B are required to enroll. Part C is required to use the online Platform, but the pieces inside it are yours to choose.

Part A: Guardian identity and authority (required)

Why we ask. We may only enroll a child with the agreement of an adult who has legal authority over that child.

Child's full name: _____ Date of birth: _____

Guardian's full name: _____ Relationship to child: _____

Guardian email: _____ Guardian phone: _____

Any custody or legal limits we should know about: _____

I confirm that:

& I am the parent or legal Guardian of the child named above and have authority to make these decisions for them.

& The information I am providing is true and current.

& I will notify CurioLab if my legal authority to consent changes.

> These confirmations are required. If you cannot make them, please stop and contact us, because we cannot enroll a child without a consenting Guardian.

Guardian signature (Part A): _____ Date: _____

Part B: Program participation and conduct (required)

What your child is joining. A mentorship program in which a screened Mentor helps your child build coding projects. Sessions may be held online, in person, or both.

I understand and agree that:

& My child will follow the CurioLab code of conduct, which requires respectful behavior and prohibits harassment and the sharing of others' private information.

& Mentors are screened before working with Students. Screening is a safeguard and not a guarantee.

& If a CurioLab adult forms a reasonable concern about a child's safety, they may be legally required to report it to county children services or law enforcement, and CurioLab cannot promise to keep such a concern private.

& CurioLab may remove any Student or Mentor for conduct reasons.

> These terms are required to enroll.

Guardian signature (Part B): _____ Date: _____

Part C: Platform account and information we collect (account consent

required; the second item is optional)

Plain summary. To use the Platform, your child needs an account. Below is what we collect, why, and who sees it. By default nothing your child creates is public. Public sharing, photographs, and Mentor messaging are handled on their own separate forms, not here.

Information collected and its purpose:

| Information | Purpose | Who can see it |

|---|---|---|

| Name or a nickname you choose | To identify the account | Student, Mentor, program staff |

| Age or grade level | To match curriculum and apply age-based protections | Program staff |

| Project work the Student creates | Core purpose of the program | Student, Mentor; the chapter only if you allow the optional item below |

| Attendance and Mentor verifications | To build the Student's record | Student, Mentor, program staff |

| Login and basic technical data | Account operation and security | Program staff and service providers who help operate the Platform |

What this form does not do. It does not make your child's work public, does not release it to outside parties, and does not enable Mentor direct messaging. Each of those has its own form.

Please choose:

& (Required to use the Platform.) I consent to CurioLab creating an account for my child and collecting and using the information above, for the stated purposes and for Internal use only.

& (Optional.) My child's project work may also be visible to other Students and Mentors within my child's own chapter when they are signed in. This remains non-public and is not searchable on the internet. Leave blank to keep the work visible only to the Mentor and staff.

Your ongoing rights. You may review the information we hold about your child, request its deletion, or withdraw the optional item above at any time. Withdrawing the required account consent closes the account. Certain records we are required to keep are described in the child privacy notice and in Form 00.

> The first item is required to use the Platform. If you leave it blank, your child may still take part in in-person activities without an online account. The second item is optional.

Guardian signature (Part C): _____ Date: _____

Annex (for CurioLab / counsel)

- Grants: `guardian\_identity` (A), `program\_participation` (B), `platform\_account` (C1, required), `chapter\_visibility` (C2, optional and independently revocable).
- Verification: per Form 00 section 2. For under-sixteen, apply strong VPC if any collected data becomes visible beyond Internal use; confirm against R.C. 1349.09 account-creation duty.
- Renewal: per cohort and on material data-practice change.
- Prohibited here: any affiliate or third-party data-sharing language. External data flows require separate disclosure, re-consent, and likely stronger verification.
- Authorities: COPPA Rule (notice, parental rights); R.C. 1349.09 (account-creation VPC, under sixteen); R.C. 1306 (e-signature).
